

# Tradex Industrial Salt

High-purity vacuum salt tablets for water softening, industrial purification and swimming pool applications.

## TECHNICAL CHARACTERISTICS

| CHEMICAL ANALYSIS         |           | HEAVY METALS |          |
|---------------------------|-----------|--------------|----------|
| Natriumchloride           | > 99,75%  | Arsenic      | <0,5 ppm |
| Potassium                 | < 200 ppm | Cadmium      | <0,5 ppm |
| Magnesium                 | < 200 ppm | Chrome       | <13 ppm  |
| Calcium                   | < 300 ppm | Copper       | <2 ppm   |
| Sulfates                  | < 600 ppm | Mercury      | <0,1 ppm |
| Bromo                     | < 50 ppm  | Lead Nickel  | <1 ppm   |
| Water-insoluble materials | < 300 ppm | Antimony     | <13 ppm  |
| Humidity                  | < 0,1%    | Selenium     | <2,6 ppm |
|                           |           | Manganese    | <2 ppm   |
|                           |           | Iron         | <2 ppm   |
